ADAC-SKANDAL

## „Gelber Engel“ seit 2009 manipuliert

Ein Prüfbericht zeigt, dass der ADAC bereits seit fünf Jahren bei der Preisverleihung betrogen hat. Erste Anzeichen deuten darauf hin, dass sich der Skandal für den Autoclub auch darüber hinaus noch ausweiten könnte.

VW-SKANDAL

## Lustreisen kosten VW Millionen

Dem Volkswagen-Konzern ist durch die Affäre um Lustreisen für Betriebsräte und Schmiergelder ein Schaden von etwa 5 Millionen Euro entstanden.

# Employee training is the most important challenge

## Policy management challenges in %, N = 729

## Explanation

**The ongoing trend:** Companies become larger and more international.

**The result:** Regulations and compliance requirements are becoming longer and more complicated

**The problem:** Employees are overwhelmed by regulations. Status quo: If rules are not found quickly, employees act on gut feeling.

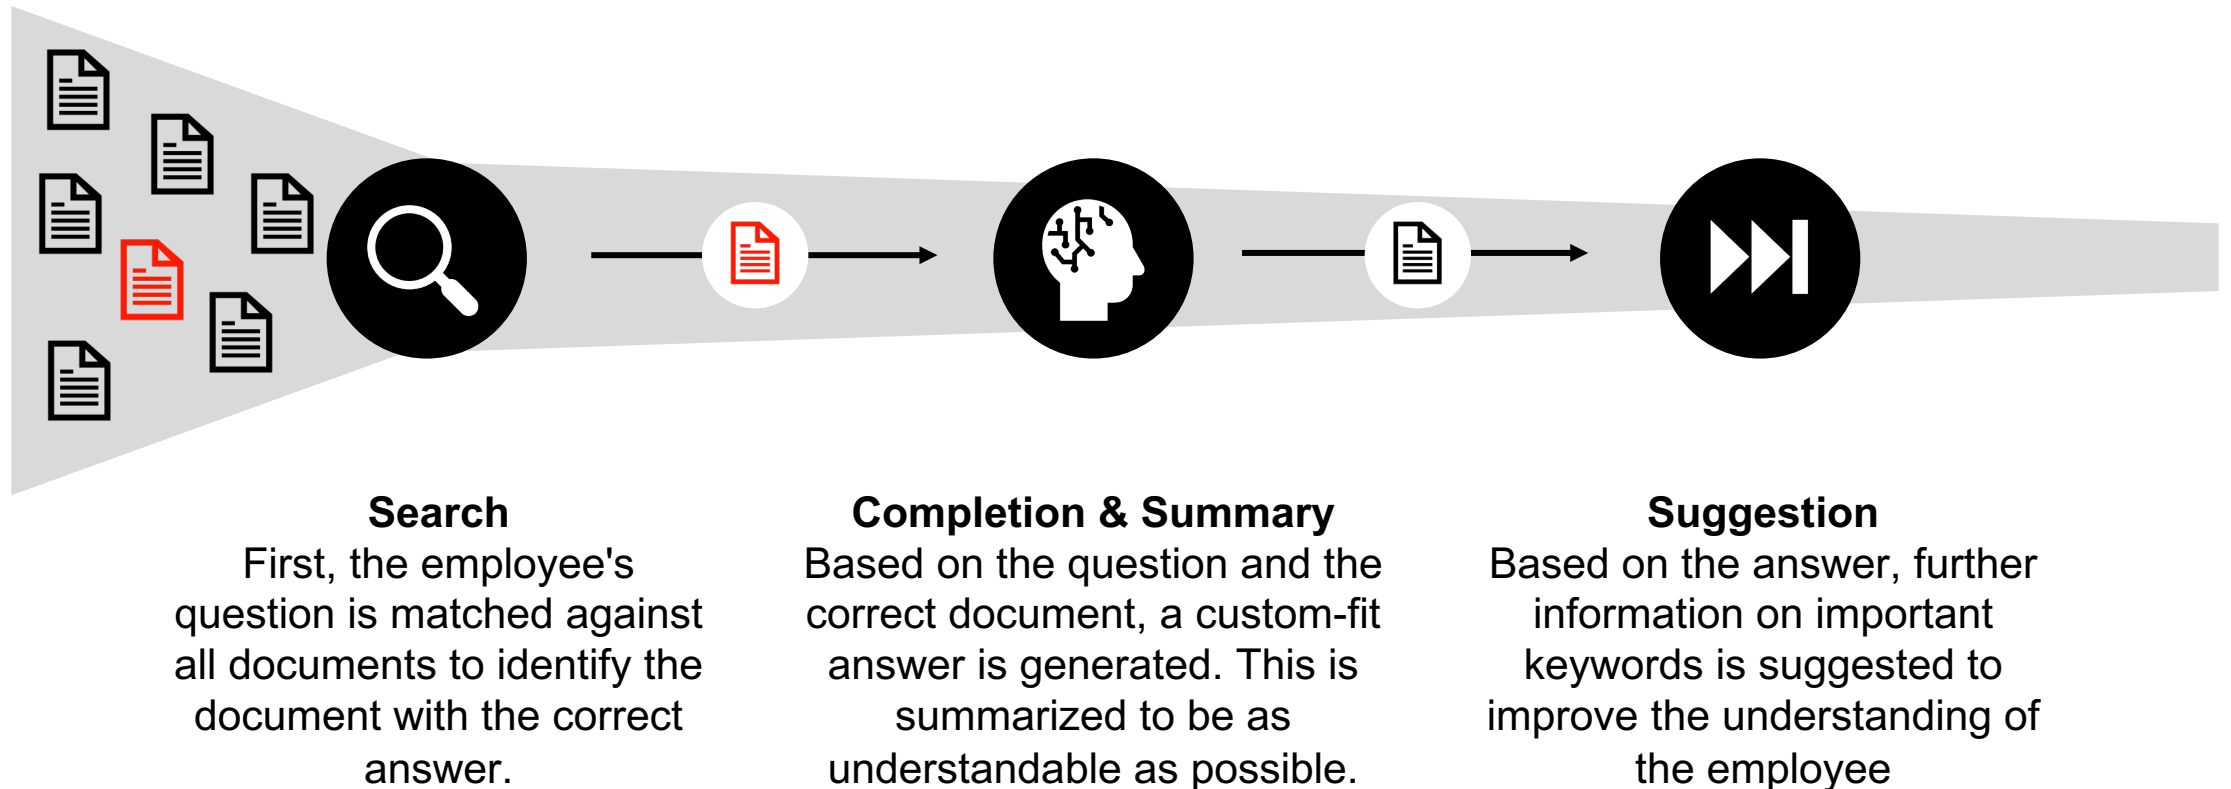

# We provide lightning-fast and easy-to-understand answers

## Main advantages

-  **Lightning-fast:** Information can be found in seconds and significantly lowers the inhibition threshold to get information on compliance
-  **Easy-to-understand:** Complex subjects are intelligently summarized without requiring employees to sift through pages and pages of legal jargon
-  **Highly scalable:** Our chatbot is available 24/7, costs little and can be scaled to any number of employees and locations without any problems

# Our solution is based on three stages of GPT-3

# An attractive market beyond compliance

## Our business model...

**Perfectly customized:** We convert our customers' compliance documents into a format suitable for GPT-3 and adapt our chatbot to their CI

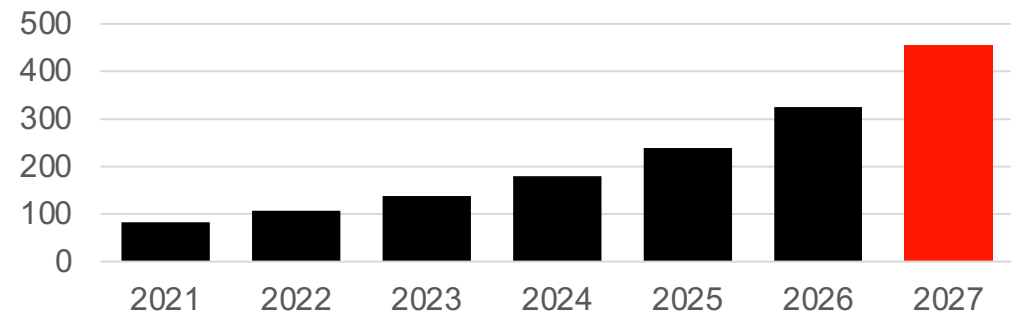

**Pay-per-use:** After setup, companies only pay as much as their employees actually use the chatbot

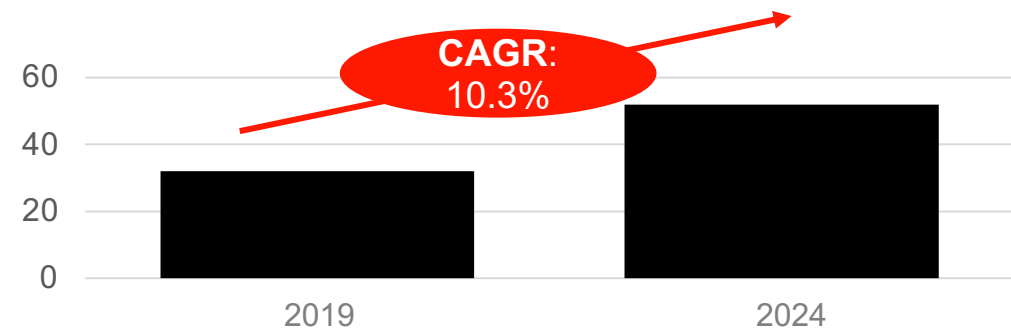

**Product expansion:** We want to become the starting point for employees to quickly find internal company information and documents. Forget searching wikis and SharePoint forever!

## ...has high growth prospects

Chatbot market revenue 2020 to 2027 in Mio. \$

eGRC market size from 2019 to 2024 in Bio. \$
